---

Downey struck out the first line in the last paragraph - see attached.

My understanding is the Secretary's Office wants this out ASAP. Once we have your surname, Exec Sec is planning on taking to Front Office for final review this afternoon.

If there are any other questions, please let us know.

Thank you,  
Lisa

I hope there is a strikeout or edit in the last pp, since as drafted it indirectly but clearly states a decision that as of mid-day today had not been made. I can't surname until I see the edit.

And is there some reason we could not wait a week or so to reply, so we could tell them what the decision is?

Good afternoon:

Attached is the response to Governors Moliga, Calvo, and Torres on fishing prohibitions in marine national monuments in the Pacific.

Downey has asked for your surname. She made a strikeout to the last paragraph but I don't have that edit tonight. I will email it to you tomorrow morning when I get into the office. We need your surname tomorrow morning please.

I am also attaching another incoming from Governor Moliga that Exec Sec received yesterday, as an FYI.

The Honorable Lolo L.M. Moliga  
Governor of American Samoa  
~~A.P. Lutali Executive Office Building~~  
Pago, Pago, American Samoa 96799

Dear Governor Moliga:

Thank you for your letter of March 3, 2017, outlining concerns about the prohibition of commercial fishing within the ~~four Marine National Monuments (Monuments)~~ in the Pacific Ocean. The ~~four Pacific Marine National Monuments~~ (~~Monuments~~) were established by President George W. Bush and expanded by President Barack Obama under the authority of the Antiquities Act of 1906. They are cooperatively managed by the U.S. Fish and Wildlife Service (~~Service~~~~FWS~~) and the National Oceanic and Atmospheric Administration (NOAA). In addition, the State of Hawai'i, American Samoa, and the Commonwealth of the Northern Mariana Islands are cooperative managers of the Monuments within their respective jurisdictions.

Formatted: Right: -0.1"

Together, these agencies have the responsibility to manage ~~the~~ Monuments consistent with their specific Presidential Proclamations. The regulation of fishing and management of fishery resources is described in the establishing language for each Monument. The Proclamations have differing language that excludes or prohibits commercial fishing, while providing for noncommercial, sustenance, and traditional indigenous fishing within the Monuments. As outlined in the ~~executive order~~~~Executive Order~~ signed by President Donald J. Trump on April 26, 2017, the Department of the Interior is conducting a review of all Presidential designations or expansions of designations under the Antiquities Act made since January 1, 1996.

Part of this review will, as appropriate, involve consulting and coordinating with the ~~Governors of~~ ~~States~~ affected by monument designations or other relevant officials of affected ~~State~~, tribal, and local governments. This review will consider the Antiquities Act requirement that reservations of land not exceed "the smallest area compatible with the proper care and management of the objects to be protected." This review will also take into account the concerns of ~~State~~, tribal, and local governments affected by a designation, including the economic development and fiscal condition of affected ~~States~~, tribes, and localities, as expressed in your letter with regards to fishing prohibitions.
